REBUILT ITEMS: engine, alternator, water pump, master cylinder, wheel cylinders and carburetor.

OWNERSHIP HISTORY

Purchased from Baldwin Auto Company on 8/2/67 by Yue Hxxx Mxx. The car was on the lot. The car was rarely driven and put into storage in 1970 with 7950 miles. In April of 1976 Yue removed car from storage and rebuilt and modified the car (see repair log). The car was raced on occasion at National Speedway with a best time of 12.6 at 115mph. The modifications to the car were as follows, 850 holley, Electric fuel pump, Traction bars, Cam & Headers, although no scatter shield (go figure). The Car was last registered & inspected in 1981, it was again put in storage until my purchase in January of 1996. The mileage when purchase was 19,356, and mileage as of 12/15/17 20,125 miles.

The spoiler (rear) was added at dealership at the request of the new owner.

I have shown the car once at the ICC 1996 Nationals in Pocono PA. It took second place in the 67 restored class. It was classified in with restored cars due to lack of unrestored class. This was the catalyst to wanting an unrestored class, and my involvement in the Vintage Certification program.

Originally I purchased Jan-1996, sold July -2002 and purchased back Dec-2017.
